۱. حركة مقدسه اسلاميه ( حماس ) :

ينقسم تنظيم حركة ال اربع مناطق رئيسيه :

۱. منطقه الوسط : وتشمل في القدس - رام الله - بيت لحم - اريحا -

وجميع بقية الجوارده كمنه لونه ارضيه [

۲. قوة المنطقة تتركز في مدينة رام الله والقرى الجوارده لها وتضعفت في مدينة القدس لقلة عدد الوجود هناك . ويعتقد تصعيد العمل في القدس على بقية الجوارده ليا .

۳. فصل عمل حركة عن عمل الدعوة جيد نوعاً ما ولكنه غير منفصل تماماً فالعمل في القدس مرتبط (صلة مزاج) مع سؤال الدعوة .

سؤال الحركة اني جديد على العمل وبسببه اني قدیم في العمل وهو معتقد عليه في تنفيذ اعمال الحركة ، ولا يكون سؤال الحركة في الضفة لكن طبعاً

۴. يوجد في المنطقة بعض المؤسسات وكانه لا يوجد تنسيق متين

بيننا وبين الدعوة أو الحركة . لهذا فانه ليه حجم المطلوب

في منطقة شمال القدس .

۵. لا يوجد اية مكاتب اعلاميه للمنطقة خصوصاً بعد هزيمه المكتب الذي كان موجوداً ومصادر معلوماته مع من قبل السلطات .

۶. يوجد في المنطقة عدد من شخصيات اعلاميه مهمه ولكننا نعطله بتقليل مع سلطات اليهود .

و المنطقة تعاني من مشكلة اطلاق الموقوفات تكونوا ليه بيدهم وجه جيد فتتأخر ايام او شهور - بلطيليا مع الموقوفات في المردنه تفيد ذلك وهم بائس تمام لذلك .

۷. اخذت بعضه بان ميزانية المنطقة (٧٥) الف دولاري ولكنهم طلبوا (١٥٠) الف واطلبه انهم قادرين على العمل ب (٧٥) الف واري امتناح بلطيليا لتبينه للاستقام .

۸. وجود بلطيليا توفير جثات دراسيه لهم للدراسه في الخارج .

Subject: A report about a visit to occupied Palestine from 5-17 until 6-4/1991

The report includes several main points regarding Hamas Movement situation in the inside and the situation of the Daw'a work in the '48 territories, as well as some remarks and recommendations I want to convey to you and which I see suitable to organize the activity work in the future.

The main points in the report are:

- A- The situation of the Hamas Movement
- B- The situation of the Daw'a work in the '48 territories.
- C- The general situation in the Bank and the Sector.
- D- The future of work - remarks and recommendations
- E- Elections and the suggested solutions.
- F- Remarks.

- The Islamic Resistance Movement ( Hamas)

The Movement organization is divided into four main regions:

1- The Central Region: It includes [Jerusalem-Ramallah-Bethlehem-Jericho - and all the villages surrounding these main cities].

A- The strength of the region is centralized in the city of Ramallah and its surrounding villages. It gets weaker in Jerusalem for the scarcity of the brothers there. The escalation of work in Jerusalem relies mainly on its surrounding villages.

B- Separation between the Movement activity and the Dawa'a work is good somehow, yet, it is not fully separated. The brother in charge of the Movement is a relative (kinship relation) to the person-in-charge of the Dawa'a work. The person in charge of the Movement is a new brother to work and is assisted by a senior brother who is relied on to carry out the Movement activities. The brother in charge moves easily in the Bank because he is a doctor.

C- There are few institutions in the region but there is no strong coordination between them and the Dawa'a work or the Movement. Institutions are not at the size needed for an area such as Jerusalem.

D- There are not any informational offices in the region especially after the office which was once there was hit and its belongings confiscated by the authorities.

E- There are several important Islamic figures in the region but they are idle due to a threat by the Jewish authorities.

F- The region suffers from the problem of the endowment management because it is not in their hands. It is under the control of the Fatah or Independents. They request the endowments in Jordan to change that and they are in dire need for that.

G- I told the brothers that the budget for the region is (75) thousand a month, but they requested (100) thousands. I believe that they are capable of working with (75) thousands and I see that the balance be deducted for investment.

H- The brothers request the availability of scholarships for them to study abroad.

The Hebron Region:

It includes the city of Hebron and its villages.

A- Separation between the Dawa'a work and the Movement is not good as the brother in charge of the Dawa'a work is the person in charge of Hamas and the brothers who are in charge have been elected from among the brothers.

B- The difficulty of communicating with the region due to the non-availability of phones in the region and the laziness of the brothers over there.

C- There aren't any media offices in the region.

D- There are Islamic institutions in good coordination with the Dawa'a work.

E- There are better venues for investment, especially regarding commercial activities. There is an investment project which is building a market next to Al-Ibrahimian Sanctuary because the Jews want to empty the area next to the Sanctuary. The brothers see that this project is fruitful and also important in order to populate the area next to Al-Ibrahimian Sanctuary.

F- The region's budget does not exceed 50 thousand dollars, please disburse the balance for investment.

G- The brothers are suffering from the problems of Hizb-Al-Tahrir and its continuous criticism of the work of the brothers in Jordan and elsewhere.

H- The brothers entered the election for the Hebron Chamber of Commerce.

I- The director of the Hebron Endowment is not one of the brothers. Rather, he is affiliated with the Fatah organization.

### 3- The North Region:

It includes the cities of Nablus-Jenin-Tulkarem and the villages neighboring these cities.

A- the separation between the Dawa'a work and the Movement is somewhat good. The brother in charge of the Movement is a member of an office made up of four brothers to manage work in the region.

B- Ease of communication with the region due to many phones and institutions belonging to the brothers in the region.

C- There is a media office - Nablus for press and information. However, there are confessions against it and the brothers believe that the office is monitored.

D- There is brother Farhan 'Alqam who can open an independent information office and he can be contacted from abroad.

E- There is a center for studies in the region run by a doctor from the Al-Najah University. I recommend linking this center from abroad and assisting it as much as possible.

F- There are good investment projects in the region and it seems that the brothers have the capability to run these projects based on Nablus being the economic center for the Bank. Also, there is a number of brothers who are merchants and an economic committee to study projects in the region as well.

G- There is a project for an Islamic school which might be converted to an intermediate college in the future. The issue requires a quick study.

H- The budget of the region is (100) thousand dollars, please send the balance as an amount for investment.

I- There are brothers who are fugitives in the region and the brothers feel they should be linked to the outside as the region needs those brothers in order to protect the organization.

J- The directors of endowment are not all among the brothers except Jenin endowment. The brothers request a change to the directors of endowment and some of the imams of mosques.

K- The situation of the brothers in jails is good and they are in the best of conditions.

#### 4- The South Region:

It includes the entire Gaza Sector.

A- Separation between the Dawa'a work and the Movement is very good, the security situation in the region is excellent, the brother in charge of the Movement is from Rafah and hardly anyone knows him.

B- The difficulty of contacting with the person in charge due to scarcity of phones, and due to the little experience of the brother in charge with the modern communication systems.

C- The situation of the Movement has been restored to 90% based on the statement of the brother in charge.

D- There are no media offices in the region.

E- There are investment enterprises but the brother in charge doesn't know a lot about them because most of them are Gaza city.

F- Over 14 workers at the Islamic University were arrested and the brothers at the university believe that a board of directors for the university ought to be appointed for fear of failure of the Movement's nominees.

G- The University president is requested to consult with the rest of the members of the administrative board upon appointments.

H- The region requests the help of the brothers in Egypt to obtain weapons or to smuggle some of the fugitive brothers in the region.

I- The brothers ask Abu Omar to change his place of residence for fear for his safety.

J- The brothers request a University budget for the coming years.

K- The brothers asked Dr. Al-Zahar to open a center for studies and researches and he approved that.

L- There are three investment projects presented by Dr. Al-Zahar:

- Purchasing two trucks ....[unclear] thousands.
- Flour mill.
- Chickens food factory.

M- Region's budget is no more than 150 thousand dollars, please invest the rest.

N- The situation of the brothers in jails is good, thanks be to God.
