We, faculty and students of Islamic University of Gaza have learned that on October 3, 1994 you smeared the Holy Land Foundation For Relief And Development.

We condemn your report and demand that you retract or apologize to the Holy Land Foundation for the following reasons.

The HLF has been one of few American Charities that supported our university, the largest university in the entire Occupied Territories. The Islamic University of Gaza is recognized officially by the Palestinian Authority and is a full member of the Council for Higher Education which is headed by the minister of education. About 5000 students are currently enrolled & study in various specialities. These specialities include engineering, Science, Business, Nursing, Arts, Education & the Islamic Law. IUG also renders services to the community through its Environmental Research Unit, Med. Technology Labs. and the Community Service and Continuing Education Center.

Through its grants, the HLF has helped the University expand and maintain a decent service to both students and community.

HLF's support to the poor students among us has helped them continue their education. HLF is involved at this moment with a giant projects in the University. Without HLF's help the university will not be able to finish them.

Your attack on the HLF is an attack on the university, because the university does not divert funds to support terrorists.

When you smear the image of HLF you mean to cut off the funds that go for education.

We trust and believe in the Holy Land Foundation because we have seen its work throughout Gaza Strip. We can testify the many changes it has made in the lives of thousands of Palestinians who couldn't have done without the Holy Land Foundation.

If you want to learn more about the Holy Land Foundation learn through Palestinians who find no help but from HLF. Do not learn from people who hate the Palestinians and work for Israeli intelligence.

The following is a partial list of the staff and students who support the HLF and demand your apology:

Mr. Lane Venardos .

The Patient's Friends Society - Hebron is a charitable society, established 1976 and is well known for its humanitarian services in the fields of health care all around Hebron Area and the West Bank .

The PFS has been running the project of Al Ahli Hospital (300 beds) and achieving great success. In its endeavors to complete this project the PFS has received continued flow of funds from the Holy Land Foundation that made possible the completion of an operation theatre, equipping E.N.T section and other facilities to Al Ahli Hospital .

These funds were granted openly and in good spirit for humanitarian purposes mainly the treatment of poor patients. If you consider the care for the poor and needy as an act of terrorism, please show yourself in the right field. Al Ahli Hospital- Hebron invites every conscientious man to show himself in the field of humanitarian services in a tangible and positive manner . This was always the way the Holy Land Foundation acted : It is moral ! isn't it !

Enclosed please find a copy of a gentleman's agreement with HLF and a photo of the witness of their assistance .

Thank You

Dr. Hafez Abdel Nabi

President Of PFS- Hebron
