In the name of God, the Beneficent, the Merciful

The Honorable Brother Shukri Abou Baker
The Fund's Executive Director

God's peace, mercy, and blessings be upon you.

May God bless you and all the honorable brothers who perform the best of charitable deeds which is supporting the Mujahideen in the occupied land. O Lord, fulfill your blessing upon us, support us with your victory and heal the grudges in our hearts, you are All-Listener, All-Near and grantor of prayers.

To proceed, the prophet - God's peace and mercy be upon him- in the meaning of the Saying, (I and the orphan sponsor are in heaven like this in Paradise, and he - prayers and peace be upon him - pointed to his fingers next to each other). I have noticed among the Fund's group of projects the orphans sponsorships and there is no one among us who does not want to attain to this position by the prophet, God's prayers and peace be upon him, and is honored by it.

Even though I am far from the our occupied land physically, yet the heart bleeds for what I hear and see and I would like to sponsor an orphan in the dear, blessed land of Palestine, and offer whatever he needs so I get closer to Almighty God. I would like for that to be a personal matter, and not a public one as this will alleviate some of the sufferings from the heart of a male or a female orphan due to the loss of the father when they know that there are Muslims who want to fill his place, even though that is difficult.

I have noticed that the American organizations which work in our land do what is called (Foster Parents), some of them are non-religious organizations and others are Christian missionaries. They connect American donors with children in this region and provide them with information about the developments in the lives of the children. We are more obligated to establish these relationships as, by God, I don't believe that financial sponsorship is enough, even though it worthy of appreciation but the emotional sponsorship fulfills a need in addition to it.

I will repeat the statement that reviewing your letter filled my heart with happiness. I was in bewilderment, asking about who is helping those people, and whether the world has turned its back to them. I pray to God for you and for the brothers to receive forgiveness and the good reward. He is capable of doing what He wants. Peace be to you.

Your brother
Hassan Elmansouri
