U.S. v. HLF, et al.

---

Sh: Yes. What is going on?

Ja: Man, why don't you install this program I told you about.

Sh: I will go today...

Ja: *Media Ring.*

Sh: I will go today and purchase a new *computer* and I will ask today.

Ja: Ok, what you call it..., if there is a way to feed me with what you call it...

Sh: I will feed you with Sudanese peanuts, you want....er.

Ja: No, no. I got..., what you call it, a communication program...

Sh: Yes.

Ja: But, it is with this *credit*. It is called *net2*...

Sh: What is it called? Let me write it.

Ja: *net...*, *net...2*, number 2, that is....

Sh: Yes.

Ja: *phone.*

Sh: *net2phone.*

Ja: Yes. *net2*, number 2, of course,....

Sh: Yes.

Ja: *2phone.*

Sh: Yes.

Ja: The advantage of this one is that calls from your end to mine is about half a dollar only.

Sh: Yes. Ok, I get cheaper rates than that by card.

Ja: I know, I know. There are some countries such as Brazil which are 17 *cents*.

Sh: Yes, yes. Reasonable.

Ja: Yes, from your end to Brazil costs 17 cents.

Sh: And to Jordan. To Jordan?

Ja: It gives you discounted rates. To Jordan, by God, I believe it is less than half a dollar.

Sh: Yes. I mean, it is about...

Ja: The advantage of this one is..., for instance....

Sh: Yes, tell me.

Ja: Its advantage is that you could get it cheap...

Sh: Yes.

Ja: From my end, I can contact..., I can call Jordan. I can call Emirates. I mean, we find some country for cheap rates.

Sh: And how are you calling right now?

Ja: I'm talking with you *free*. But, the *free* one doesn't work with me every time.

Sh: Yes.

Ja: I mean, this is *free* just to America.

Sh: Ah. And it is expensive for Jordan.

Ja: What?

Sh: Not for Jordan?

Ja: No. Not to Jordan. No.

Sh: Ah. America because it is....

Ja: Yes.

Sh: Ok. What is it you want me to do?

Ja: I have a *number*....

Sh: Yes.

Ja: ...what you call it, a membership, an *ID*, I mean, I got an *ID* in this company.

Sh: Yes.

Ja: Fine?

Sh: Yes.

Ja: This company..., when I try to pay, they ask me to pay with a *credit*...

Sh: Yes.

Ja: Because I purchase pre-paid calls.

Sh: Yes, I see what you're saying.

Ja: Yes. But, what is the problem, I worry about the *credit* thieves over the *internet*.

Sh: They steal them, yes.

Ja: That's why I said if you have small amounts of money on a *credit*, small amounts of money, it would be better.

Sh: Yes. You mean, I call them and charge to....

Ja: Yes.

Sh: Ok, what is your account number? What is your account number?

Ja: By God, I'm looking for it, the one I established. I forgot it. Anyway, this *ID* for *Media Ring*, I established one with *Media Ring* through which I'm talking to you. *Media Ring*. one of the advantages of the *Media Ring* if you install it, God's willing....

Sh: Yes.

Ja: ...is that we can do *chatting by voice*, *by voice*, to whatever country we want....

Sh: Yes, yes.

Ja: ....provided that the other party installed it.

Sh: Yes, right.

Ja: ...the same program.

Sh: Did you tell Majdi to install it?

Ja: What?

Sh: Did you speak with Majdi or not yet?

Ja: Majdi is not installing anything.

Sh: By God?

Ja: By God, I got tired trying to convince him. He just installed the *Media Ring* I'm telling you about. Him and I can do *chatting freely* through the *Media Ring Talk*.

Sh: Yes.

Ja: Anyway, the *account...*, my *account number* for the *net2phone.com...*

Sh: Yes.

Ja: *net2phone.com...*

Sh: Yes.

Ja: ...er, it is under the name "Gimi"....

Sh: Bin..., Bin... One more time, what is it?

Ja: The *account number*?

Sh: What is this "Bin Gimi"?

Ja: No, no. I'm saying, Gimi. This is my name..., the name I requested.

Sh: Yes.

Ja: G-I-M-I.

Sh: Yes.

Ja: *Account number...*

Sh: Yes.

Ja: 3852...

Sh: Yes.

Ja: ...9870...

Sh: Yes.

Ja: ...036110.

Sh: Ok

Ja: If you make a payment to the *account* of about \$20, for instance, something like that...

Sh: Yes.

Ja: ...I just want a way to *guarantee* that no one will hack your personal *data*.

Sh: Yes, of course.

Ja: Because the *data* brings up the name, the *number* and these things which are particular to the *credit card*.

Sh: Correct, right. The only way for me is to try to call them directly and ask them how to make a payment for my brother, for his account number....

Ja: Yes, yes.

Sh: So, we will find out how. This name..., what did you use with them?

Ja: This *ID*, my *ID* is....UI.

Sh: Yes.

Ja: If you tell them, "*This is the ID for...er*, member number so and so".

Sh: Yes, *Ok, Ok*

Ja: So, they will pull up the *data*: My name is Jamal and I don't know what, in Sudan and stuff like that.

Sh: *Ok*. What is the last name you used?

Ja: What?

Sh: Your last name, what has it become?

Ja: Baker.

Sh: Baker?

Ja: Yes.

Sh: Jamal Baker?

Ja: Baker, you who bakes.

Sh: [Laughs]. Man, this is a deviation from the creed. You're... This is deviation from the creed.

Ja: [Laughs] Listen.

Sh: Yes.

Ja: What do you want from the name? Now, everything is *numbers*. What do you want the name for? With the *number* you have a...UI.

Sh: ...UI.

Ja: If you can deposit some money for me, I would be able to call you every now and then.

Sh: Your request is honored by me.

Ja: I would like it to be honored through your pocket [Laughs].

Sh: Yes, yes. From my pocket. Don't get upset. It is a redemption, a redemption for you, Abou Ahmad. Just ask for more than that.

Ja: Convince Majdi for me, man, to install this *Media Talker*, the *Media Ring Talk*.

Sh: We made him an important personality, Majdi .

Ja: Yes, at least talk with him, man, through the *chatting*, *voice chatting*.

Sh: Fine. We will speak with him. We will speak with him.

Ja: I sent him via *e-mail* an *invitation* to the *Media Talk* but, it seems that this guy doesn't understand English. He doesn't understand English.

Sh: No, not English. You didn't send me anything in English.

Ja: I sent to your *e-mail*. It seems that you don't check it.

Sh: How come I don't check it. I check it and the *computer* is even ....UI. I turn it on every day and there is nothing.

Ja: *Concentric*?

Sh: What?

Ja: *Concentric*, right?

Sh: Yes, *.net*.

Ja: Ok, shukri..., it isn't it shukri....

Sh: s-h-u-k-r-i.

Ja @concentric?

Sh: Yes.

Ja: *concentric.net*?

Sh: Yes.

Ja: Ok, I will send you an *invitation* through this program, *Media*, so that you get acquainted with it.

Sh: Ah. *Ok*.

Ja: And, if you install it, you would be able to do *chatting* with Majdi and with me and normally with any other party who has installed the same *system*, the same program.

Sh: Yes, Ok. Fine. What are you doing this summer?

Ja: What?

Sh: Are you going or coming?

Ja: I can't hear.

---

Sh: This locust<sup>1</sup>, did it fly away or is it still there?

Ja: No. He went to Yemen.

Sh: No, Yemen! In one jump.

Ja: Yes. He handed over his work to me and things got easy for him. May God make things easy for him.

Sh: Anyway, that's good. A clever guy.

---

<sup>1</sup> [LS: "Jarada", Arabic for "locust", is also an Arabic male name].
