

الله وبعد #فهرزم الله خير الجزاء على جهادكم وجهودكم، وندعو الله تعالى أن يثبتكم ويثوي بأسكم وأن يحفظكم ويرعاكم، ويحفظ انتفاضة شعبنا المباركة من كل جهود التطويل والإحباط، كما ندعوه تعالى أن يرحم شهدائنا ويشفي جرحائنا، ويكسر أسرارنا وأن يكمل هذا الجهاد المبارك بالتحريض والنصر والخلاص من الاحتلال. وبمناسبة الأيام المباركة التي مضت من شهر رمضان وعيد الفطر المبارك نتمنى لكم التهتة والمباركة، وفقبل الله طابعتكم وكل عام وأنتم بخير #الأحوة الأبية: لقد عقدت الهيئة الشورية بتزوين الله وحده جلساتها بحضور ما يقارب 80 من أعضائها وقد حضر خمسة من ممثلي القطاع وكذلك حضر اثنان عن الاحوة في رام الله، واثنان عن الاحوة في الخليل ولم يحضر أحد من نابلس والشكوك. وتمت الانتخابات وقد أعيد انتخاب الأخ أبو الوليد وعليه جاري إعادة تشكيل المكتب السياسي وفقا للصيغة التي أقرت في التعديلات الأخيرة على اللائحة والهيئعت على أن المكتب السياسي يتكون من أحد عشر عضوا (رئيسا + خمسة أعضاء من الداخل + خمسة أعضاء من الخارج) ويبحث بكون الأعضاء الخمسة من الداخل من الضفة والقطاع (ثلاثة أعضاء من الضفة وعضوان من غزة) وكما تعلمون للمكتب السياسي هو القيادة السياسية المعلنة للحركة وتسمية أعضاء من الضفة وغزة يوسع وحدة الحركة ووحدة مؤسساتها ويؤكد ما كنا نعلنه دوماً بأن قيادة الحركة لا تخص نفسها في مكان جغرافي بعينه وأنها منتشرة وتتواجد في أماكن مختلفة في الداخل والخارج وبذلك يتم معالجة الانطباع السائد بأن قيادة الحركة في الخارج فقط هذا إضافة إلى أن وجود احوة من الداخل في عضوية المكتب السياسي يمكن الداخل من تفعيل مشاكرته في القرار السياسي اليومي للحركة وبصورة مباشرة هذا وسوقصيرم ياذنه تعالى الانتفاضة على الألية المناسبة للتواصل بين أعضاء المكتب السياسي في الداخل والخارج وتأمين مشاركة الاحوة المعنيين من الداخل في اتخاذ القرارات في المكتب السياسي وذلك بعد تحديد الأسماء. وسوف يوزع أعضاء الضفة الثلاثة في المكتب السياسي على مناطق الضفة الثلاث بحيث يكون لكل منطقة ممثل لها في المكتب السياسي، لهذا نرجو منكم تسمية اثنين من الاحوة الرموز السياسية المعروفة - كل في منطقته - والتي تمارس العمل السياسي المعلن، وذلك حتى يمتاز الاحوة هنا (في القيادة الجديدة) واحدا من الاثنين المرشحين عن كل منطقة لضحية المكتب السياسي، وذلك وفق ما تنص عليه اللائحة #لقد أرسلنا لكم ورقة حول الانتفاضة وضرورة العمل على استمرارها واستثمارها في نفس الوقت والأهداف الخاصة المتوخاة منها وبحمد الله فقد أخذت الانتفاضة في تجديد برنامج المقاومة بشقيه الشعبي والعسكري واصبح واضحا للقاصي والداني أن الانتفاضة قد وجدت الشعب الفلسطيني وقواه وتمكنت من التغلب على المعوقات وتجاوزت كل محاولات التهدة كما أن الشعوب العربية والإسلامية تفاعلت معها بصورة جيدة ومن ثم اصبح من الضروري العمل على إيجاد جهة في الحركة تأخذ على عاتقها وضع البرامج واليات التنفيذ وتجاوز العقبات الميدانية للفعاليات المختلفة خاصة وان من الدروس المستفادة من الانتفاضة السابقة ضرورة التوازن بين عدم انغماس التنظيم بكليته في الفعاليات والعمل اليومي للانتفاضة حتى لا تتعطل برامجه أو تكون على حساب أعماله الأخرى ومن جهة أخرى عدم ترك الأمر لاجتهادات الشباب في المناطق المختلفة وتفصلهم لكثافت مع الأحداث بحيث يفسر العمل في مناطق أو يتضخم في مناطق أخرى لذا ندرس الاحوة عندنا هذا الأمر ونخلص الجميع إلى ضرورة تشكيل جهاز مختص بالمقاومة الشعبية في الداخل يأخذ على عاتقه العمل على استمرار الانتفاضة بتجاوز المعوقات من جهة ويكون قادر على اخذ زمام المبادرة بحيث يتم توظيف التطورات السياسية والأحداث المختلفة بما يخدم البرنامج المقاوم للحركة شعبيا وتأمين الجماهيرية المطلوبة للتفاعل مع الأحداث وإيجاد الأرضية اللازمة للتواصل مع مختلف القطاعات المتتالية في حال تتواءم الانتفاضة وبموجب تناسب مع العمل العسكري باعتبار أن الانتفاضة بحاجة إلى الجناحين معا جناح الزعم الشعبي وفعالياته المتفجئة وجناح العمل العسكري الذي يعزز الانتفاضة وروح المقاومة وفي نفس الوقت يلعب حماس الجماهير في حال التهدة. هذا إضافة إلى الاهتمام بالعمل الجماهيري السياسي بحيث يكون قادرا على إيجاد رأي عام شعبي قادر على تحريك من خلال الفعاليات السياسية (مظاهرات وغيرها) في حال تعرضت الحركة لأي إجماعات قمعية مما يشكل حماية شعبية لها وفي نفس الوقت تحريك الشارع تعبيرا عن المواقف السياسية التي تريدها الحركة كما يمكن وزن الحركة في الشارع من خلال الأداء الإعلامي والسياسي. ومن هنا يكون الجهاز المراد إنشاؤه غير يتط بملة الانتفاضة فقط بل هو جهاز فني متخصص للمقاومة الشعبية والفعاليات الشعبية على ان يتم تشكيل الجهاز من نوعية محددة من الاحوة ذوي التجربة هذا المجال وهم بدورهم يشكلون المجموعات في المناطق المختلفة ويتم التواصل مع اللجنة المشكلة في الخارج لهذا الغرض من خلال قيادة الحركة في الداخل على ان يكون هناك تواصل مباشر بين قيادة هذا الجهاز غي غزة وقيادته في الضفة هذا ويتم تشكيل الجهاز في كل مناطق الضفة على ان يراعى اختيار الاحوة الذين هم حركون بين مناطق الضفة مثل الطلاب او العمال وذلك حتى يتم التواصل بين قيادات مناطق الضفة المختلفة وتأمين قيادة مركزية للضفة واذا تعذر يتم التنسيق قيمي بين المناطق المختلفة. هذا ومرافق ورقة حول هذا الأمر نرجو إبلاغكم برأيكم فيها مع الرسائل ومن اجل اختصار الوقت نرجو المباشرة في تشكيل الجهاز في وقت الذي ترسلون فيه ملاحظتكم حول التفاصيل لناعلتها بالاعتبار ويمكن في حال عدم إبلاغ الرسائل برأيكم الرد عبر الفاكس او الإنترنت وذلك بذكر نوان التالي (ملاحظتكم على المقال رقم 10 حول العمل الطلابي والكتابة بالإشارة إلى صفحاتنا واسطر الورقة المرفقة ويتم استبدال جملة (جهاز المقاومة الشعبية) (الجهاز الطلابي). جهاز المقاومة الشعبية (إدارة وقيادة الانتفاضة) الأهداف: - ...[missing text] may God keep them. Peace be upon you and God's mercy. To proceed, may God reward you the best of reward for your Jihad and your effort. We ask Almighty God to keep you steadfast, to strengthen you, to keep you and protect you, and to protect the blessed Intifada of our people from all attempts to derail and abort. We also call upon The Almighty to have mercy on our martyrs, to heal our wounded and to release our detainees, and to crown this blessed efforts with liberation, victory and riddance from the occupation. On the occasion of the blessed days which passed from the month of Ramadan and the blessed Eid El-Fitr, we submit to you congratulations and felicitations. May God accept your obedience and many happy returns to you. The beloved brothers, with God's guidance and thanks, the Shura Council held its session with about 80 of its members in attendance. Five representatives from the Sector attended, as well as two from the brothers in Ramallah, two from the brothers in Hebron, while none attended from Nablus and...[IL]. Brother Aboul Walid was re-elected. Based on that, the Political Bureau is being re-formed according to format which was approved in the latest changes to the bylaws, which stated that the Political Bureau is to be made up of eleven members (A chairman + five members from the inside + five members from the outside), noting that the five members from the inside are to be from the Bank and the Sector (three members from the Bank and two members from Gaza). As you know, the Political Bureau is the Movement's overt political leadership and naming members from the Bank and Gaza strengthens the unity of the Movement, the unity of its organizations, and affirms what we have always said that the leadership of the Movement does not limit itself in one geographical location, but it is spread out and exists in different locations inside and outside. Thus, the prevailing impression that the leadership of the Movement in outside only is set straight, in addition to the fact that the presence of brothers from the inside in the membership of the Political Bureau enables the inside to effectively and directly participate in the Movement's daily political decision. With permission of the Almighty, we will ...[IL] the proper mechanism for communication between members of the Political Bureau in the inside and the outside, and securing the participation of the concerned brothers in the inside in reaching decisions in the Political Bureau after determining the names. The three members of the Bank in the Political Bureau will be distributed to the Bank's three regions so that each region will have its representative in the Political Bureau. Therefore, we ask you to name two brothers among the known political figures – each in his region – and ones who practice overt political work so that the brothers over here (in the new leadership) choose one of the two people nominated for membership of the Political Bureau according to what the bylaws state. We had sent you a paper regarding the Intifada and the necessity to work towards its continuity and investing it at the same time, and the goals hoped from. Thanks be to God, the Intifada has contributed to the deep-rooting of resistance with its popular and military categories, and it became clear to all that the Intifada has unified the Palestinian people, was able to overcome the obstacles and has bypassed all attempts for calm. Also, the Arab and Islamic people have responded positively with it. Therefore, it has become necessary to work on... [IL] a party in the Movement which shoulders the responsibility of putting in place programs and mechanisms for implementation and overcoming field obstacles of actual implementation, specially that one of the lessons gleaned from the previous Intifada is the necessity of maintaining balance between guarding against the Movement's total immersion in the activities and the daily work of the Intifada so that its

programs are not hindered or carried out at the expense of its other activities. On the other hand, the matter should not be left up to innovation of the youths in the different regions and their varying response to the incidents leading to the drop of work in regions or its rise in other regions. Therefore, the brothers at our end studied this matter and everyone concluded that it is necessary to form an apparatus that is specialized in popular resistance which takes the responsibility of working to continue the Intifada and bypassing obstacles from one side, and be able to take the initiative so that political developments and different events are employed in a way that serves the Movement's popular resistance program with the needed preparedness to deal with the events and finding the proper ground for the launch of the Intifada's successive waves should the Intifada calm down, and in a way which is suitable with the military work since the Intifada needs both wings; the popular support and its rising activities and the military work apparatus which strengthens the Intifada, the spirit of resistance and, at the same time, ignites the zeal of the masses in case of a calm-down. This is in addition of paying attention to political popular work so that it is able to create a public opinion that is able to ...[IL] through political activities (demonstrations and others) in case the Movement was subjected to any oppressive measures. This affords it a popular protection to it and, at the same time, mobilizes the public to express the political positions that the Movement needs. This also reflects the size of the Movement for the public through media and political performance. Based on that, the apparatus that is sought is not only ...[IL] with this Intifada, but it is an apparatus that is designated for popular resistance and popular activities. The apparatus should be formed from a specific type of brothers with experience in this field. They in turn are to form groups in the different regions and communicate with the committee formed abroad for this purpose through the leadership of the Movement in the inside, provided that there is a direct communication between the leadership of this apparatus in Gaza and its leadership in the Bank. The apparatus is to be formed in all areas of the Bank, while selecting the brothers who are... [IL] among areas of the Bank such as students or laborers in order to maintain communication between the leaders of the different regions of the Bank and securing a central leadership for the Bank. If that was not possible, coordination is to be initiated between the different regions. Attached is a paper regarding the above. Please inform us of your opinion in it with the courier. In order to save time, please start forming the apparatus during the time you are sending us your remarks about the details so that we can take them into consideration. Should you not be able to inform the courier of your opinion, you can reply via fax or the Internet by stating the following (Remarks on article number 10 regarding student activism), and it is sufficient to mention the pages and the lines of the attached paper and substituting the sentence (The Popular Resistance Apparatus) with (Student Apparatus). The Popular Resistance Apparatus (Administering and leadership of the Intifada). The goals: (1) Administering the Intifada, leading it, and developing its activities and tools, (2) Possessing the ability to self-start the events, (3) Planning and directing the events to what serves the political decision taken in that regards, (4) Expressing the Movement popular position, (5) Defending the Movement itself and its main symbol:- (1) Forming two central committees in the Bank and the Gaza Sector, provided that these committees represent all regions affiliated with it as much as possible. In case there is no central... [IL], the committees are to coordinate regions among themselves. (2) Forming an organizational network which covers the needed areas

of mobilization upon need such as merchants, schools, mosques,[IL] and universities. Executive tasks of committees: - One: the Outside Committee: - to be made up of a group of members determined by the leadership of the Movement which chooses one of them to be in charge of the committee to administer... [IL] and it meets periodically. Its duties:- (1) Following up on daily developments and events, (2) Putting together plans and practical suggestions to continue the events, (3) Preparing studies aiming at... [IL] the current Intifada or any Intifada in the future, (4) Working to develop the Intifada through studying previous experiences and relaying of experiences, (5) Benefiting from the experiences of... [IL] world liberation movements in popular resistance, (6) Putting together general policies for events and following up on implementation, (7) Mobilizing popular sectors in the outside to support Jihad... [IL], (8) Working to cover expenses of the popular resistance from the social, economic and political aspects, (9), covering the financial needs of the working committees, (10) ...[IL] cover for the activities of the popular resistance with all available and possible means. Second: The leading committee in the inside:- The leadership of the apparatus in the various regions in the inside is to be appointed through the Movement in the regions, provided that the leadership of the apparatus is to be formed from specialized members. Each member will be responsible for directing a certain sector of the popular sector which exists in the region... [missing text]... by dealing positively with them, (2) Providing the leadership of the Movement inside and the concerned committees outside with daily reports about the incidents, (3) Working to expand the organizational base by absorbing and recruiting new popular elements, (4) Studying and determining effective sectors in the regions and... [IL] auxiliary committees to perform its popular duty in resistance, (5) Providing auxiliary committees working in the sectors with media and political materials as a way of moral support, (6) Communicating with the leadership of the Movement and carrying out the policies requested by them, (7) Monitoring the main axes, friction areas and mobilizing them through the formation of auxiliary committees needed for the continuity of the events, (8) Monitoring the role played by the Palestinian factions and the Authority in the events and the extent of their response to them, whether negatively or positively, (9) Supervising the implementation of the duties of the auxiliary committees and the work that is requested of them, (10) Distribution of roles between the auxiliary committees in order to cover the activities at the all-sectors level, (11) Putting together plans and alternative plans for resistance should any party attempt to halt the Intifada. Three: Duties of the Auxiliary Committees:- Auxiliary committees are to be formed in each one of the popular sectors which are considered the executive tool for the Movement's policy, provided that each sector contain one committee or more to cover the requirements of the popular resistance, each according to its position or the field of its duty. There are common duties carried out by all sectors, and there are special duties carried out by specialized duties which can be summed up in the following:- (1) Rapid and immediate response to the requirements of the resistance such as marches and confrontations, (2) Media coverage of any event by chants, banners, slogans and the overt aspects of the popular resistance, (3) Coining methods and means which would activate and mobilize events and enlighten people, (4) Recruiting new elements in all sectors and mobilizing them to serve the popular mobilization, (5) Putting together emergency plans to protect the achievements of the Movement and defending them in cooperation with the local committee in the event of the arrest of the Movement's symbols, its organizations and

mosques to closure, (6) Monitoring and enumerating important friction points in the settlements and enemy positions to strike them, (7) Putting together plans for studied popular mobilization to confront the enemy with the least possible losses or to pressure the Authority, (8) The auxiliary committees are to provide the leadership with daily reports of events, each according to its field of work, (9) Reaching out to general massing in markets, universities and places of work...etc., through the political popular committees to mobilize them towards any event to serve the vision of the Movement, (10) Monitoring the enemy's measures in confronting the popular resistance and formatting counter-measures, (11) Supervising the distribution of the media material that assists the resistance and preparation of chants and slogans, (12) Paying attention to the merchants' sector and organizing it to serve any public mobilization or strike and financial contribution in financing activities, (13) Providing care to the role of the mosques and the scholars due to their far-reaching impact in activating and mobilizing the people in order to achieve the needed goals. As for what relates to military work, we rejoice much in this blessed atmosphere which accompanied Al Aqsa Intifada and the heroic acts which were manifested during it, especially the youths and boys' generation, the rise of morale and the preparedness to sacrifice and be patient on this road. Consequently, the atmosphere is very suitable, God willing, for us to rebuild our work, selecting those who are suitable for it and preparing them in the proper manner in light of these hot daily confrontations with the enemy. Based on it, we place in your hands the following suggestion: Forming a field leadership at the needed level and it will take charge later on of building the work, its men and all of its requirements with the required speed taking advantage of these favorable conditions and atmosphere. This might save time and achieve effectiveness to carry out what is needed, especially in light of the dire need for it. The leadership should be able to perform short and long-term discernment. Yet, due to the dangers which might overcome it and their ramifications on the general body in light of the previous experiences, we ask you to pay attention to the following issues and the importance of taking them into notice for increased work precision, control and reducing its negatives as much as possible. They are issues which are not hidden from you in light of the previous experience but they must be revisited and stressed: - A) It is important not to connect this work with the leadership of the Movement (The Bureau). Therefore, it is imperative that a good field leadership for this work is chosen and it is the one which will start building and following up on its future steps. B) It is also imperative for this leadership to properly select, monitor and to maintain balance between the importance of speed in implementation and the necessity of control and direct so that the work does not begin impaired or exposed from the beginning, God forbid. As much as the situation calls for speed in investing and taking advantage, it also carries dangers or the possibility of falling into other people's traps, snares and cast nets. It is to be noted that dangers cannot be completely avoided, but diligence must be practiced to reduce them and Almighty God is the protector. C) Upon your approval of the suggestion, we will supply you with the needed budge to begin forming the groups and preparation of equipment and to take advantage of the current opportunity to work while it is important to set aside one brother from you side so that we can discuss this issue with him. D) Later on, and after building the leadership of the work, it is imperative that a suitable connection with the outside is established for it so that our brothers who are appointed outside can contact it and provide proper direction and logistical support to it, provide what it needs of experiences,

direction and monitor the experience. It is imperative that we are notified of any news or information about this work at your end, particularly the operations which are announced under different names. Attachment to the above letter: Please send your media plan and find the means to connect us with it in order to achieve the highest level possible of media development on the inside level while stressing the importance of highlighting symbols of media work from your side through the Studies Center, the academic level or those working in the newspaper. We also stress the importance of finding relationships between symbols of political and media work and those working in the media field in the inside such as Arab and world correspondents and representatives, and seeking to coordinate with us in order to improve the efficiency of the brothers who work in the media field and the graduates of journalism and media in particular in order to introduce them to the satellites channels, publishing and newspapers so that some of them are selected as correspondents for them in the inside. We also stress the importance of coordination with the brothers in Gaza and consulting the political and media address of the Movement so that what we present is in harmonious and the same thing applies to the outside. There is a serious effort by our brothers outside to mobilize and activate the Arab and Islamic public, as despite the fact that the intensity of the marches and demonstrations has receded, it has produced results in other aspects such as the collection of donations, the incline to boycott U.S. goods and the deep-rooting of the principle of resisting the normalization at the organizational and the public level. Please comfort us regarding your financial situation as we try hard to make more transfers to your end, whether through charity work, or through emergency budgets with which we still operate. On that regards, we confirm our need for new account numbers for the transfer from... [incomplete], and stress the fact that work is underway to provide money to aspects relating to the martyrs and the detainees and other issues through what is being transferred through the charity organizations as this is a main goal for the increase in transfers to these organizations so that budgets are dispensed according to the most ideal means which elevate the performance of the Movement. To close, we ask Almighty God to make our work and yours purely for His sake and to obtain His pleasure. Your brothers, 1/18/2001. (P.S.: Please call us at the following phone number for emergency matters from public phones. The caller is to inquire about the Dar al-Taqwa Campaign for Pilgrimage and Minor Pilgrimage, and then identifies himself and his region. The number is 0041793689694).
