Team,

As I indicated to some of you last week, the Dallas County evaluation committee will be briefing the Commissioners Court tomorrow, regarding the down select of the final two vendors for the Records Management initiative. Due to reasons that I have already communicated to Helena, the committee is going to recommend that LanData and Amcad, be selected as the down selected vendors, and that they perform site visits and BAFO with these two only. In stratagizing with the Dallas Team as well as several Dallas County executives, we feel that our best move at this point will be to persuade the Commissioners Court to vote to allow ALL vendors to enter the final stage of competition. This would require 3 of the 5 voting members to approve. Late last week and over the weekend, my efforts have been focused on this. I would like to discuss further to ensure that in the event we are successful in extending the field, we have a game plan in place to follow up with. Thanks..

Please see the briefing for tomorrow: Page 95.
