Haven't been able to reach Kathy today and am getting on an airplane soon. I would just tell Bill that we're huddling internally to determine response to Bill. Should have our position in the next very few days. I'll keep trying to reach Kathy.

No. Kathy Nealy wants to discuss internally tomorrow, and we need to be responsive to her political nose. She's wants to challenge our internal decision to give up on the FTZ. We have to plan the handling with the Commissioner appropriately and respectfully. So, need to delay talking to Bill until tomorrow. Thanks.

Is it Ok to tell Bill Methenitis now? I'd love to be able to call him at lunch and not have to talk to him.

Please call me. Went badly with Bill, all due to Ross' published comments and our other public opposition to the South Dallas port. He started talking (and fussing) about the signs at Victory. He also fussed about us holding up the Southport deal for 60 days and is working to go around the Commissioner.

I think we need to drop this and in a politically correct way get that word to the Commissioner. Otherwise, could have Victory implications.

I've got calls into our political folks.
